"pay offline" option available at the end of the view Bid details form. Before this, the Bidder should download the e-Bid document and price schedule/bill of quantity (BOQ) and study them carefully. The Bidder should keep all the documents ready as per the requirements of e-Bid document in the PDF format except the price schedule /bill of quantity (BOQ) which should be in the XLS format (excel sheet).

- d) After clicking the 'pay offline' option, the Bidder will be redirected to terms and conditions page. The Bidder should read the terms & conditions before proceeding to fill in the Bid fee and EMD offline payment details. After entering and saving the Bid fee and EMD details form so that "bid document preparation and submission" window appears to upload the documents as per technical (fee details, qualification details, e-Bid form and technical specification details) and financial (e-Bid form and price schedule/BOQ) schedules/packets given in the Bid details. The details of the RTGS/NEFT should tally with the details available in the scanned copy and the date entered during e-Bid submission time otherwise the e-Bid submitted will not be accepted.
- e) Next the Bidder should upload the technical e-Bid documents for fee details (e-Bid fee and EMD), Qualification details. Before uploading, the Bidder has to select the relevant digital signature certificate. He may be prompted to enter the digital signature certificate password, if necessary. For uploading, the Bidder should click "browse" button against each document label in technical and financial schedules/packets and then upload the relevant PDF/XLS files already prepared and stored in the Bidder's computer. The required documents for each document label of technical (fee details, qualification details, e-Bid form and technical specification details) and financial (e-Bid form and price schedule/BOQ) schedules/packets can be clubbed together to make single different files for each label.
- f) The Bidder should click "Encrypt" next for successfully encrypting and uploading of required documents. during the above process, the e-Bid document are digitally signed using the DSC of the Bidder and then the documents are encrypted/locked electronically with the DSC's of the bid openers to ensure that the e-Bid documents are protected, stored and opened by concerned bid openers only.
- g) After successful submission of e-Bid document, a page giving the summary of e-Bid submission will be displayed confirming end of e-Bid submission process. The Bidder can take a printout of the bid summary using the "print" option available in the window as an acknowledgement for future reference.
- h) NMRC reserves the right to cancel any or all e-Bids without assigning any reason.

3.8 Late e-Bid

- a) Bids received by NMRC after the specified time on the Bid Due Date shall not be eligible for consideration and shall be summarily rejected.
- b) The server time indicated in the bid management window on the e- procurement website <http://etender.up.nic.in> will be the time by which the e-Bid submission activity will be allowed till the permissible date and time scheduled in the e-Bid.
- c) Once the e-Bid submission date and time is over, the Bidder cannot submit his/her e-Bid. Bidder has to start the bid submission well in advance so that the submission process passes off smoothly. The Bidder will only be held responsible if his/her e-Bid is not submitted in time due to any of his/her problems/faults, for whatsoever reason, during e-Bid submission process.

3.9 Withdrawal and resubmission of e-Bid

- a) At any point of time, a Bidder can withdraw his/her e-Bid submitted online before the bid submission end date and time. For withdrawing the Bidder should first log in using his/her login id and password and subsequently by his/her digital signature certificate on the e-procurement website <http://etender.up.nic.in>. The Bidder should then select "My bids" option in the bid submission menu. The page listing all the bids submitted by the Bidder will be displayed. Click "View" to see the details of the bid to be withdrawn. After selecting the "bid withdrawal" option the Bidder has to click "Yes" to the message "Do you want to withdraw this bid?" displayed in the bid information window for the selected bid. The Bidder also has to enter the bid withdrawing reasons and upload the letter giving the reasons for withdrawing before clicking the "Submit" button. The Bidder has to confirm again by pressing "OK" button before finally withdrawing his/her selected e-Bid.
- b) No e-Bid may be withdrawn in the interval between the deadline for submission of e-Bids and the expiration of period of e- bid validity. Withdrawal of an e-Bid during this interval may result in the forfeiting of Bidder's e-Bid security.
- c) The Bidder can re-submit his/her e-Bid as when required till the e-Bid submission end date and time. The e-Bid submitted earlier will be replaced by the new one. The payment made by the Bidder earlier will be used for revised e-Bid and the new e-Bid submission summary generated after the successful submission of the revised e-Bid will considered for evaluation purposes. For resubmission, the Bidder should first log in using his/her login Id and password and subsequently by his/her digital signature certificate on the e-procurement website <http://etender.up.nic.in>. The Bidder should then select "My bids" option in the bid submission menu. The page listing all the bids submitted by the Bidder will be displayed. Click "View" to see the detail of the e-Bid to be resubmitted. After selecting the "bid resubmission" option, click "Encrypt & upload" to upload the revised e-Bids documents.
- d) The Bidder can submit their revised e-Bids as many times as possible by uploading their e-Bid documents within the scheduled date & time for submission of e-Bids.
- e) No e-Bid can be resubmitted subsequently after the deadline for submission of e-Bids.

3.10 NMRC's right to accept any e-Bid and to reject any or all e-Bids:

- a) Notwithstanding anything contained in this e-Bid, NMRC reserves the right to accept or reject any Bid and to annul the Selection Process and reject all Bids, at any time without any liability or any obligation for such acceptance, rejection or annulment, and without assigning any reasons thereof.
- b) NMRC reserves the right to reject any Bid if:
 - At any time, a material misrepresentation is made or uncovered, or
 - The Bidder does not provide, within the time specified by NMRC, the supplemental information sought by NMRC for evaluation of the e-Bid.
- c) Such misrepresentation/ improper response may lead to the disqualification of the Bidder. If such disqualification/rejection occurs after the e-Bid have been opened and the highest ranking Bidder gets disqualified / rejected, then the NMRC reserves the right to consider the next best Bidder, or take any other measure as may be deemed fit in the sole discretion of NMRC, including annulment of the Selection Process.

- The contractor shall deploy resources as per the above-mentioned minimum requirement and also confirm to deploy manpower over and above the minimum numbers indicated above, if the work requires so.**
- The performance of project personnel deployed will be evaluated periodically by Employer during the contract period. In case the performance of any of the project personnel is not satisfactory, the Contractor shall replace them with good personnel immediately as per directions of the Engineer.**

4.4 Compliance with Technical Specifications

The Bidders must comply with the stipulated technical specifications as mentioned in the tender documents.

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

4.5 Information of the Technical and Financial Proposal

- a) The Bidder satisfying technical and financial eligibility criteria shall be considered as technically and financially qualified.
- b) The financial proposal of only technically qualified Bidders shall be opened for evaluation.
- c) The Bidder with the lowest quoted price for the RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years in the financial quote (**L1 bidder**) shall be selected for the award of contract.

4.6 Selection of Bidder

After the above evaluation process, the Technically Qualified Bidder, who is declared as L1 (lowest quoted price) may be declared as the selected Bidder ("Selected Bidder") for the Project.

- a) In case, two or more technically qualified bidders quote the same rate in the Commercial Bid, and become Lowest (i.e. L-1), then the tender would be awarded to the bidder who has the highest / higher Average Annual Turnover (as per Minimum Eligibility Criteria defined in Section 4 under "Definition of Similar Work") during the last 2 years ending on the last day of the month preceding the month in which the tender has been floated. Experience certificate / work completion certificate on client's letter head is mandatory to ascertain the nature, period and value of work which shall be required to be uploaded by the bidder by the last date of tender submission. Prior to the expiry of the period of bid validity, NMRC will notify the successful bidder in writing, either through Notice of Award (NOA), that his bid has been accepted.
- b) Prior to the expiry of the period of bid validity, NMRC will notify the successful bidder in writing through Notice of Award (NOA), that his bid has been accepted.
- c) The NOA would be sent in duplicate to the successful bidder, who will return one copy to NMRC duly acknowledged, signed and stamped by the authorized signatory of the bidder, as an unconditional acceptance of the NOA, within 10 (ten) days from the date of issue of NOA.
- d) No correspondence will be entertained by NMRC from the unsuccessful bidder.

4.7 Notice of Award and Execution of Contract Agreement

- a) NMRC will notify the Successful Bidder by a NOA that its bid has been accepted.
- b) The Selected Bidder shall, within 10 (ten) days of the receipt of the NOA, sign and return the duplicate copy of the NOA in acknowledgement thereof along with letter of acceptance of NOA. In the event, the duplicate copy of the NOA duly signed by the Selected Bidder and letter of acceptance of NOA is not received by the stipulated date, NMRC may, unless it consents to extension of time for submission thereof, appropriate the Bid Security of such Bidder as mutually agreed genuine pre-estimated loss and damage suffered by NMRC on account of failure of the Selected Bidder to acknowledge the NOA.
- c) The Successful Bidder shall execute the Contract Agreement within 45 (Forty Five) days of the letter of acceptance of NOA or such extended period as may be decided by the Corporation.
- d) Failure of the Successful Bidder to comply with the requirement of acknowledgement of NOA shall constitute sufficient grounds for the annulment of the NOA, and forfeiture of the bid security.
- e) The Employer reserves the right to increase or decrease the quantity up to 25% of the quantity offered by the successful tenderer. The bidder is bound to accept the increase or decrease in the tendered quantity up to 25% under this clause without any change in unit price.

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

In case the variation in individual items or the group of items as stipulated above, is more than 25% on plus side, the rate for the varied quantity beyond 25% shall be negotiated between the NMRC and the Contractor and mutually agreed rates arrived at before actual execution of the extra quantity. In case the contractor executes the extra quantity without written approval of the NMRC with specific instructions to execute pending the finalization of rates, the payment shall be made at contract rate only. In the event of disagreement, the Engineer shall fix such rates of price as are, in his opinion appropriate and shall notify the Contractor accordingly, with a copy to the Employer. Until such time as rates or prices are agreed or fixed, the Engineer shall determine provisional rates or prices to enable on account payments to the Contractor. Alternatively, in the event of disagreement, the Contractor shall have no claim to execute extra quantities/new items and the Engineer shall be free to get such additional quantities beyond 25% new items executed through any other agency. However, if the Engineer or the Employer so directs the Contractor shall be bound to carry out any such additional quantities beyond the limits stated above original quantities and or new items and the disagreement or the difference regarding rates to be paid for the same shall be settled in the manner laid down under the conditions for the settlement of dispute.

4.8 Performance Bank Guarantee / Security Deposit

- a) To fulfil the requirement of performance bank guarantee during the implementation period, the Successful Bidder (herein referred to as the "Contractor") shall deposit **10% of the Contract Price** in form of FDR/ DD/RTGS/NEFT or unconditional and irrevocable Bank Guarantee bond issued by a scheduled bank in favor of Noida Metro Rail Corporation Ltd within 30 days from receipt of Notice of Award. For unsuccessful bidder, EMD shall be refunded without any interest. **The Performance Guarantee should be valid for a period of 06 (six) months beyond the DLP.** The performance guarantee should be issued by scheduled commercial bank from branch located in Delhi NCR, Noida or Greater Noida. Bidder should be ensured that issuing branch as well as encashment branch should be located in the area mentioned above. The bank guarantee shall be extended or renewed in advance before the expiry of existing Bank Guarantee in favour of NMRC.
- b) It is to note that if contract value increases by more than 25% of the original contract value, the performance bank guarantee shall be increased accordingly.
- c) A Contract agreement will have to be signed by the Contractor at his cost on proper stamp paper. Without performance guarantee by Contractor, Contract agreement shall not be signed.
- d) NMRC reserves the right for deduction of NMRC dues from Contractor's Performance Bank Guarantee/ Security Deposit (interest free) for
 - (i) Any penalty imposed by NMRC for violation of any terms and conditions of agreement committed by the Contractor.
 - (ii) Any amount which NMRC becomes liable to the Government/Third party due to any default of the Contractor or any of his director/ employees/ representatives/ servant/ agent, etc.

2	Above 50% and up to 80% -On three consecutive checks	Good - Engineer in-charge to issue warning to contractor to improve. Three successive warnings will be considered as poor performance of contractor and action as per overall performance clause (S.No. 1) shall be taken.
3	Above 80% - 80% of contract period	Very Good - Contractor is recommended to continue to work for next one year.

NOTE: Above checks will be done on quarterly basis.

6. Section 6: Employer's requirement

6.1 Objective

- a) The objective of the contract is the maintenance completion, testing and commissioning of the permanent works by the Contractor (including without limitation, the maintenance and removal of the Temporary Works) and the rectification of defects appearing in Permanent Works in the manner and to the standards and within the time stipulated by the Contract. In full recognition of this objective, and with full acceptance of the obligations, liabilities and risks which may be involved, the Contractor shall undertake the execution of the Works.

6.2 General

- a) Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years shall be of highest standards available using proven up-to-date good Engineering practices. The Specification shall in any case not specify standards which, in the Engineer's opinion, are less than or inferior to those described in the Technical Specifications contained in the Tender Documents.
- b) Contractor will have to develop strong service network and should have well qualified trained maintenance team for **firefighting system**.
- c) The Maintenance team should be well equipped with requisite tools and testing instruments to trouble shoot the defective equipment and check the functionality & performance of the system.
- d) All the items specified in BOQ shall be approved for their make and model from the NMRC engineer, prior to dispatch and before installation. Any material which is of inferior quality and make are liable to be rejected out rightly without any prejudice.
- e) The location of service centre & store would be well notified by the contractor to NMRC and authorized representative of NMRC will have full authority to inspect service centre and the store for inspection of availability of required spares, consumables, tools and testing instruments. The testing instruments and measuring instruments should be calibrated.
- f) Contractor will have to maintain sufficient stock of all type of spares and consumables in stock in store required to maintain all the firefighting system included in the scope of work. The spares and consumables consumed should regularly be recouped to ensure the availability of all the spares and consumables. Contractor shall submit the details of all spares and consumables available in the stock on quarterly basis.
- g) All the manpower, machinery and tools etc. required to carry out the BOQ work for successful completion of job shall be arranged and transported by contractors only at his own cost.
- h) Delivery of material shall be given by the supplier / contractor at the NMRC locations as instructed with necessary documents. All necessary charges towards packing, transportation, handling, transit insurance, taxes, duties etc. shall be borne by contractor.
- i) Electrical power supply shall be permitted for electrical works at site with contractor's ICTP having fuses, cable arrangement and distribution boards. Cable of suitable rating /

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

capacity for electrical supply shall be used by successful contractor. Electrical supply shall be tapped from the location as directed by site engineer.

- j) The successful tenderer has to make his own arrangement for loading, unloading, transportation and handling of the equipment.
- k) Scrap materials: Scrap materials, if any shall be retained by NMRC.
- l) The manpower can also be deployed during OFF days/holidays/Night hours etc. as per requirement and for which nothing shall be paid extra.
- m) Any damage/breakage to the NMRC properties during the execution of works will be at the risk & cost of the contractor and in this regard, decisions of NMRC will be final & binding regarding amount of damage/breakage etc. the amount will be deducted from Contractor's bills.
- n) Payment shall be made by NMRC quarterly after completion of work. No advance payment shall be made against this contract.
- o) The Contractor shall have to deploy multiple work force/teams at different sites simultaneously as per requirement and nature of job.
- p) The tenderer may visit the sites before submitting the offer to assess the quantum of the subject work before submitting the offer. The tenderer shall be solely responsible for the discrepancy or any short coming in their offer thereafter.
- q) **Also, to ensure that original spare parts are used following course of actions will be ensured:**
 - i. **The invoice of spare parts from OEM or its authorized dealer is required to be submitted by the contractor before replacement.**
 - ii. **Engineer representative at site shall check the spare parts and related documents.**

6.3 Scope/work covered:

a) Brief Scope:

- 1) The work should be carried out with contractors own material & labour as per the specification & drawing.
- 2) The scope of work broadly mentioned in DSR/NDSR/BOQ and as per site requirement. The work under this contract shall consist of, but not limit to, all materials, labour, equipment's tools, plants and necessary machinery as required to completely execute following works in block/non-block hours:
 - a) This work involves all type of repair, maintenance & replacement work required at site or as directed by engineer in charge.
 - b) The inspection & testing of fire fighting system at each location of Station/Depot will be carried out by the contractor at their own cost.
 - c) Any damage to other utilities, roads & building during maintenance work will be made good by the contractor.
 - d) The specification and manufacturer of material will be got approved by the contractor before start of work.
 - e) It will be the responsibility of contractor to keep the fire system in auto mode.
 - f) The work may be carried out in block hours or in revenue hours as per requirement of work at site.
 - g) Other miscellaneous items as per instructions of engineer in charge.

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

- h) The contractor shall plan & execute the work in such a way that the work proceeds smoothly to the satisfaction of engineer.
- i) The contractor shall attend regular- coordination meetings convened by the employer/engineer for interface and adhere to the decisions taken in the meeting.

The work envisaged in this tender is comprehensive in nature (i.e. inclusive of all Expertise staff including skilled/unskilled work for maintenance as per Employer requirement inclusive of all spares), All kind of minor/ major repair/rectification/modification in the system for mentioned locations of employer requirement of NMRC network as per terms and conditions of tender document.

A brief of the equipment to be covered under the Contract are detailed in the BOQ. There may be more component/sub- components/sub-system associated with which are not specified, but same are deemed to be covered under Contract.

The Tenderer is advised to visit and examine the system and its surroundings at his/their cost and obtain for himself on his own responsibility the information that may be necessary for preparing the tender and entering into the contract. The agency shall be deemed to have inspected the site and its surrounding before and taken into account all relevant factors pertaining to the site in preparation and submission of tender.

b) Corrective Maintenance:

All corrective and break down maintenance shall be done by the contractor as and when required and called for.

- (i) Call made before 15:00 hrs shall have to be attended on the same day.
- (ii) Call made after 15:00 hrs shall be attended by 12:00 hrs on next day.
- (iii) Emergency calls shall be attended on necessary priority basis.
- (iv) The vendor must have a customer care centre (24X7) where the complaints can be registered on call and the complainant can get the complaint registration number.

1) Details of breakdown & spare consumed during 1/2/3/4 quarter

S.no	Station	Date of fault	Equipment no.	Failure details	Action taken	Date of Rectification	Spare replaced	Qty	Remarks

c) Interface Work

In addition the Contractor shall be required to accommodate requirements of miscellaneous works as per interfacing requirements. The Contractor shall carry out necessary co - ordinations with PEB works contractor, E&M Contractor and various system contractors pertaining to traction power supply, signalling, telecommunication, AFC etc. for keeping provisions pertaining to cut outs, shafts, raceways, concealed conduits, other conduits, fixtures, inserts clearances etc. all complete for the scope of work. The contractor shall coordinate with PEB works contractor for providing maintenance work so as to achieve the key dates.

d) Structures

The maintenance of structures will have to be planned in such a manner that they do not obstruct or interfere with existing roads/ railways and other utilities. Where work is required to be carried out at locations adjacent to such roads/ railways, utilities, structures, monuments etc. suitable safety and protection arrangements will have to be ensured for which nothing extra will be payable. It should be ensured that no damage is caused to any such element and Engineer/ Employer shall be indemnified against such damage at no extra cost.

e) Materials

a. Materials to be supplied by the contractor for execution of the work are indicated in BOQ. The contractor shall take delivery of the materials at NMRC. However any other material not specifically mentioned herewith but is required for supply, testing, commissioning, and training of Job shall be provided by the bidder at his own cost.

b. The contractor will, however, have to procure all the tools and plants required for executing the labour portion of the work and before the actual commencement of the work the contractor will satisfy NMRC that he has procured all the necessary tools plants required of the quality. The contractor shall engage his own labour and supervisor for the execution of the covered in the contract.

c. The contractor shall supply all the materials as mentioned in BOQ and transport the equipment to the work site at his own cost

6.4 Reference to the Standard Codes of Practice

All Standards, Technical Specifications and Codes of practice referred to shall be latest editions including all applicable official amendments and revisions. The Contractor shall make available at site all relevant Indian Standard Codes of practice and IRSC & TRC Codes as applicable.

Wherever Indian Standards do not cover some particular aspects of maintenance, relevant British, German Standards will be referred to. The Contractor shall make available at site such standard codes of practice.

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21

Nos. stations of NGN Corridor for 3 years.

In case of discrepancy among Standard codes of practice and provisions in sub clauses in this RFP, the order of precedence will be as below:

- i) Provision in RFP
- ii) CPWD specifications
- iii) Standard Codes of Practice.

In case of discrepancy among Standard Codes of Practice, the order of precedence will be

IRS, IRC, IS, BS, DIN

a) STANDARDS

- i. Equipment, materials and systems shall be designed, manufactured and tested in accordance with the latest issue of International and/or National codes and standards.
- ii. Reference to standards or to materials and equipment of a particular manufacturer shall be regarded as followed by the words "or equivalent". The Contractor may propose alternative standard materials, or equipment that shall be equal to or better than those specified. If the contractor for any reason proposes alternatives to or deviations from the specified standards, or desires to use materials or equipment not covered by the specified standards, the Contractor shall apply for the consent of the Engineer. The Contractor shall state the exact nature of the change, the reason for making the change and relevant specifications of the materials and equipment in the English language. The decision of the Engineer in the matter of quality will be final.
- iii. The Contractor shall establish and maintain a Quality Assurance System in accordance with Appendix-2 of Section 8 for design and maintenance procedures and the interfaces between them. This Quality Assurance system shall be applied without prejudice to, or without in any way limiting, any Quality Assurance Systems that the Contractor already maintains.

6.5 Technology Transfer

The Contractor shall ensure that all local contractors and sub-contractors engaged in the works are given training, guidance and the necessary opportunity for transfer of technology in various areas of maintenance such as instrumentation, safety, quality assurance, viaduct and station etc.

6.6 Care of the works

- (a) Unless otherwise permitted by the Engineer all work shall be carried out in dry conditions.
- (b) The works, including materials for use in the works, shall be protected from damage due to water. Water on the Site and water entering the Site shall be promptly removed by temporary drainage or pumping systems or by other methods capable of keeping the Works free of water. Silt and debris shall be removed by traps before the water is discharged and shall be disposed of at a location or locations to which the Engineer has given his consent.
- (c) The discharge points of the temporary systems shall be as per the consent of the Engineer. The Contractor shall make all arrangements with and obtain the necessary approval from the relevant authorities for discharging water to drains watercourses etc. The relevant work shall

not be commenced until the approved arrangements for disposal of the water have been implemented.

- (d) The methods used for keeping the Works free of water shall be such that settlement of, or damage to, new and existing structures do not occur.
- (e) Measures shall be taken to prevent flotation of new and existing structures.

6.7 Protection of the works from weather

- a) Work shall not be carried out in weather conditions that may adversely affect the Works unless proper protection is provided to the satisfaction of the Engineer.
- b) Permanent Works, including materials for such Works, shall be protected from exposures of weather conditions that may adversely affect such Permanent Works or materials.
- c) During maintenance of the Works storm restraint systems shall be provided where appropriate. These systems shall ensure the security of the partially completed and ongoing stages of maintenance and in all weather conditions. Such storm restraint systems shall be installed as soon as practicable and shall be compatible with the right of way, or other access around or through- out the Site.
- d) The Contractor shall at all times, make program and order progress of the work and make all protective arrangements such that the Works can be made safe in the event of storms.
- e) The finished works shall be protected from any damage that could arise from any activities on the adjacent site/ works.

6.8 Damage and interference

- (a) Work shall be carried out in such a manner that there is no damage to or interference with:
 - (i) watercourses or drainage systems; (ii) utilities; (iii) structures (including foundations), roads, including street furniture, or other private properties; (iv) public or vehicular or pedestrian access; (v) monuments, trees, graves or burial grounds other than to the extent that is necessary for them to be removed or diverted to permit the execution of the Works. Heritage structures shall not be damaged or disfigured on any account. The Contractor shall inform the Engineer as soon as practicable of any items which are not stated in the Contract to be removed or diverted but which the Contractor considers need to be removed or diverted to enable the Works to be carried out. Such items shall not be removed or diverted until the consent of the Engineer to such removal or diversion has been obtained.
- (b) Items which are damaged or interfered with as a result of the Works and items which are removed to enable work to be carried out shall be reinstated to the satisfaction of the Engineer and to at least the same condition as existed before the work started. Any claims by Utility Agencies due to damage of utilities by the Contractor shall be borne by the Contractor.
- (c) The Contractor shall immediately inform the Engineer of any damage to structures, roads or other properties.
- (d) The Contractor shall take all necessary precautions to protect the structures or works being carried out by others adjacent to and, for the time being, within the Site from the effects of

vibrations, undermining and any other earth movements or the diversion of water flow arising from its work.

6.9 Drawings produced by the contractor

Drawings produced by the Contractor including drawings of site layouts, Temporary Works, etc. for submission to the Engineer shall generally be to ISO A1 size. The number of copies to be submitted to the Engineer shall be as stated in the Contract, or as required by Engineer.

6.10 Safety, Health and Environmental requirements

NMRC is a certified organisation for Environment, Health and safety. The work is to be carried as per international norms/standards and in such a manner that all premises always look neat & clean. Similarly, the waste disposal is also carried out in totally sealed manner without affecting the environment.

Use of "Tractor Transmission type" Pick and Carry Hydra crane:-

"Tractor Transmission type" pick and Carry Hydra Crane — 1st Generation model is prohibited at NMRC work. Contractor shall mobilize "Truck Transmission type" Pick and Carry hydra Crane - 2nd Generation model of higher version.

6.11 Testing

a) General

- (i) The Contractor shall provide and perform all forms of testing procedures applicable to the Works and various components and the interfacing of the Works with the other Contract works and shall conduct all necessary factory, site and acceptance tests.
- (ii) All testing procedures shall be submitted at least thirty (30) days prior to conducting any Test. The Testing procedures shall show unambiguously the extent of testing covered by each submission, the method of testing, the Acceptance Criteria, the relevant drawing (or modification) status and the location.
- (iii) The testing Procedures shall be submitted, as required, by the Contractor during the duration of the contract to reflect changes in system design or the identification of additional testing requirements.
- (iv) All costs associated with the Testing shall be borne by the Contractor, unless otherwise specified, including the services of any specialized personnel or independent assessors. The Contractor shall also bear any expenses incurred due to resetting caused by defects or failure of equipment to meet the requirements of the Contract in the first instance.
- (v) Unless agreed in writing by the Engineer, the personnel engaged on testing shall be independent of those directly engaged in the design or installation of the same equipment.
- (vi) All testing equipment shall carry an appropriate and valid calibration labels.

b) BATCHES, SAMPLES AND SPECIMENS

- (i) A batch of material is a specified quantity of the material that satisfies the specified conditions. If one of the specified conditions is that the material is delivered to the Site at the same time, then material delivered to the Site over a period of a few days may be considered as part of the same batch if in the opinion of the Engineer there is sufficient proof that the other specified conditions applying to the batch apply to all of the material delivered over the period.

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

- (ii) A sample is a specified quantity of material that is taken from a batch for testing and which consists of a specified amount, or a specified number of pieces or units, of the material.
 - (iii) A specimen is the portion of a sample that is to be tested.
- c) SAMPLES FOR TESTING**
- (i) Samples shall be of sufficient size and in accordance with relevant Standards to carry out all specified tests.
 - (ii) Samples taken on the Site shall be selected by, and taken in the presence of, the Engineer and shall be suitably marked for their identification. An identification marking system should be evolved at the start of works in consultation with the Engineer.
 - a. Samples shall be protected, handled and stored in such a manner that they are not damaged or contaminated and such that the properties of the sample do not change.
 - (iii) Samples shall be delivered by the Contractor, under the supervision of the Engineer, to the specified place of testing. Samples on which non-destructive tests have been carried out shall be collected from the place of testing after testing and delivered to the Site or other locations instructed by the Engineer.
 - (iv) Samples which have been tested may be incorporated in the Permanent Works provided that:
 - a. the sample complies with the specified requirements;
 - b. the sample is not damaged; and
 - c. the sample is not required to be retained under any other provision of the Contract.
 - (v) Additional samples shall be provided for testing if in the opinion of the Engineer:
 - a. material previously tested no longer complies with the specified requirements; or
 - b. material has been handled or stored in such a manner that it may not comply with the specified requirements.
- d) CONDUCTING TESTING**
- (i) The Contractor shall be responsible for all on-site and off-site testing and for all in-situ testing. All appropriate laboratory tests shall be carried out in the Contractor's laboratory, unless otherwise permitted or required by the Engineer. Where the laboratory is not appropriately equipped and/or staffed for some tests, or if agreed to by the Engineer, tests may be carried out in other laboratories provided that:
 - a) They are accredited for the relevant work to a standard acceptable to the Engineer; and
 - b) Particulars of the proposed laboratory are submitted to the Engineer for his consent.
 - (ii) In-situ tests shall be done in the presence of the Engineer.
 - (iii) Equipment, apparatus and materials for in-situ tests and laboratory compliance tests carried out by the Contractor shall be provided by the Contractor. The equipment and apparatus shall be maintained by the Contractor and shall be calibrated before the testing starts and at regular intervals as permitted by the

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

Engineer. The equipment, apparatus and materials for in-the situ tests shall be removed by the Contractor as soon as practicable after the testing is complete.

- (iv) The Contractor shall be entitled in all cases to attend the testing carried out in the Employer's or other laboratories, to inspect the calibration certificates of the testing machines and to undertake the testing on counterpart samples. Testing of such samples shall be undertaken in laboratories complying with Clause 21.4(a)(i) above and particulars of the laboratory proposed shall be submitted to the Engineer for consent prior to the testing.
- (v) Attendance on tests, including that by the Engineer, Contractor and Designer, shall be as laid down in the Quality Assurance procedures.

e) COMPLIANCE OF BATCH

- (i) The results of tests on samples or specimens shall be considered to represent the whole batch from which the sample was taken.
- (ii) A batch shall be considered as complying with the specified requirements for a material if the results of specific tests for of the specified properties comply with the specified requirements for the properties.
- (iii) If additional tests are permitted or required by the Engineer but separate compliance criteria for the additional tests are not stated in the Contract, the Engineer shall determine if the batch complies with the specified requirements for the material on the basis of the results of all tests, including the additional tests, for every property.

f) RECORDS OF TESTS

Records of in-situ tests and laboratory compliance tests carried out by the Contractor shall be kept by the Contractor on the Site and a report shall be submitted to the Engineer within seven (7) days, or such other time stated in the Contract or in the Quality Assurance Program, after completion of each test. In addition to any other requirements, the report shall contain the following details:

- (i) material or part of the Works tested;
- (ii) location of the batch from which the samples were taken or location of the part of the Works;
- (iii) place of testing;
- (iv) date and time of tests;
- (v) weather conditions in the case of in-situ tests;
- (vi) technical personnel supervising or carrying out the tests;
- (vii) size and description of samples and specimens;
- (viii) method of sampling;
- (ix) properties tested;
- (x) method of testing;
- (xi) readings and measurements taken during the tests;
- (xii) test results, including any calculations and graphs;
- (xiii) specified acceptance criteria; and
- (xiv) Other details stated in the Contract.

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

Reports of tests shall be signed by the site agent or his assistant, or by another representative authorized by the Contractor. If requested, records of tests carried out by the Employer's staff or by the Engineer shall be given to the Contractor.

- 6.12** All Temporary Works which are not to remain on the Site after the completion of the Works shall be removed prior to completion of the Works or at other times instructed by the Engineer. The Site shall be cleared and reinstated to the lines and levels and to the same condition as existed before the Works started except as otherwise stated in the Contract.
- 6.13** The site agent and his associates/ supervisors shall have experience and qualification appropriate to the type and magnitude of the Works. Full details shall be submitted of the qualifications and experience of all proposed staff to the Engineer for his approval.
- 6.14** On completion of job (i.e. Preventive Maintenance and Unscheduled breakdown maintenance) service report, will be made by the Contractor's service engineer and the same should be signed by both the service engineer and authorized customer's representative. One copy of the said service report will be handed over to the customer for their own records.
- 6.15** Any spare part replaced during carrying out unscheduled breakdown maintenance clearly recorded in the service report.
- 6.16** At the end of every quarter the Contractor shall submit the details of unscheduled work/replacement carried out along with list of parts replaced/repared along with corrective measures under taken to prevent their occurrence. The payment against Contract shall only be released after submission of duly filled preventive maintenance report.
- 6.17** At the time of completion of contract, contractor has to hand over all the system in working condition with no pending faults.
- 6.18** A failures/ breakdown shall be registered to the contractor when any defect is noted by the Concerned Site In charge of NMRC due to any of the following:

- a) Operational defect
- b) Failure of any Component/system
- c) Failure of any Sub-component/sub-system

The contractor shall not give any excuse for not attending any breakdown occurring on account of the above-mentioned conditions. All breakdown occurring on account of present/previous operational problem, maintenance lapse, ageing, power fluctuation etc, of component/ subcomponent/ system shall be the responsibility of the contractor. The scope of Breakdown Maintenance shall include the

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

attending/rectification of the Breakdown and failures occurring in the system at any time during 24 hrs x 365 days inclusive of all Sundays & Holidays.

6.19 Other Conditions

- a. The Bidders are advised before bidding to see carefully the site of work & study architectural & structural drawings for the location under the scope of this tender.
- b. In giving their rates, the Bidders should take into account all fluctuations of market construction rates of materials, as no claim shall be entertained on this account during the acceptance of the tender and the currency of the contract.
- c. Within fifteen days of the signing of Agreement, the contractor shall have to notify in writing the name of his two authorized representatives one of them will always be available at the site of work to receive the orders / instructions by Engineer in charge and the other for issue of materials and other miscellaneous works. The contractor shall be fully responsible for the orders/ instructions received by his representatives regarding quality, progress and materials from the Engineer-in-charge or any higher officer of NMRC.
- d. Contractor shall have to make their own arrangement of water and electricity for construction work at site. All the building material for the work shall be arranged by the contractor at his own cost.
- e. The contractor shall be fully responsible for setting out the works and for the correctness of the positions, levels, dimensions and alignments strictly according to the plan / architectural and structural drawings (shall be provided without any charge) and all necessary instruments, pegs poles and other material required for the purpose, failing which the contractor will be penalized as applicable.
- f. A Cement consumption register shall be maintained at the site by the department for material brought by contractor as per CPWD Manual/Specification. The contractor or his authorized representative / agent shall have to sign the register daily in token of the consumption of material consumed daily at work site.
- g. The contractor shall at all times keep the premise free from accumulated waste material or rubbish caused by his employees on the work and on completion of the work he shall clear away whole site from such material and fill up the borrow pits / cuts dug by him. He will leave whole of the site and work clear in a workman like. Nothing extra shall be paid to contractor for this clearing up.

6.20 Materials and equipment approved makes:

- Materials and goods for inclusion in the Permanent Works shall be new unless the Engineer has consented otherwise. All materials and equipments shall conform to the relevant standards and shall be of approved make and design. Wherever the ISI marked product is available, only the same shall be provided from the following

Appendix 2: Quality Assurance

The Contractor shall implement a Project Quality Management Plan in accordance with ISO9001 "Quality System - Model for Quality Assurance in Design/Development, Production, Installation and Servicing" to ensure that all materials, workmanship, plant and equipment supplied and work done under the contract meets the requirements of the contract. This plan shall apply to all activities related to the quality of items, including designing, purchasing, inspecting, handling, assembling, testing, storing, and shipping of materials and equipment and different elements of maintenance work and installations of system components.

The Quality Plan to be prepared by the Contractor and submitted to the Engineer shall follow the requirements of ISO 9000 and address each element therein.

Registration of the Contractor's organisation, or subcontractors or sub-consultants is not required for this Project but the Project Quality Management Plan as submitted shall meet the intent of the ISO 9000 requirement in that there is a comprehensive and documented approach to achieving the project quality requirements.

Quality Assurance Management Plan

The Project Quality Management Plan (PQMP) shall as a minimum address the quality system elements as required by ISO 9001, generally noting the applicability to the Contractor's Works Programme for the Project. Procedures or Quality Plans to be prepared by others (Suppliers, Subcontractors, and Sub-consultants) and their incorporation in the overall PQMP shall be identified.

The Contractor shall provide and maintain a Quality Assurance Plan (QA) to regulate methods, procedures, and processes to ensure compliance with the Contract requirements. The QA Plan, including QA written procedures, shall be submitted to the Engineer for his review.

Adequate records shall be maintained in a readily retrievable manner to provide documented evidence of quality monitoring and accountability. These records shall be available to Employer at all times during the term of the Contract and for a five year period thereafter.

The Plan shall identify:

- a) Design Process: that control, check and verify the accuracy, completeness and integration of the design shall be performed by certified personnel and in accordance with documented procedure that have the written consent of the Engineer.
- b) Special Processes: that control or verify quality shall be performed by certified personnel and in accordance with documented procedures that have the written consent of the Engineer;
- c) Inspection and Test: Inspection and testing instructions shall provide for reporting nonconformance's or questionable conditions to the Engineer; Inspection shall occur at appropriate points in the installation sequence to ensure compliance with drawings, test specifications, process specifications, and quality standards. The Engineer shall designate, if necessary, inspection hold points into installation or inspection planning procedures;
- d) Receiving Inspection: These procedures shall be used to preclude the use of nonconforming materials and to ensure that only correct and accepted items are used and installed;

RFP for Maintenance contract of firefighting system installed at NGN Depot, Staff quarter and 21 Nos. stations of NGN Corridor for 3 years.

- e) Identification and Inspection Status: a system for identifying the progressive inspection status of equipment, materials, components, subassemblies, and assemblies as to their acceptance, rejection, or non-inspection shall be maintained;
- f) Identification and Control of Items: an item identification and traceability control shall be provided;
- g) Handling, Storage, and Delivery: provide for adequate work, surveillance and inspection instructions.
- h) The Plan shall ensure that conditions adverse to quality such as failures, malfunctions, deficiencies, deviations, and defects in materials and equipment shall be promptly identified and corrected.
- i) The Plan shall provide for establishing, and maintaining an effective and positive system for controlling non-conforming material including procedures for the identification, segregation, and disposal of all non-conforming material. Dispositions for the use or repair of nonconforming materials shall require the Engineers consent.

Plan Implementation and Verification

The Plan shall clearly define the QA Organisation. Management responsibility for the QA shall be set forth on the Contractor's policy and organisation chart. The Plan shall define the requirements for QA personnel, their skills and training. Records of personnel certifications shall be maintained and monitored by the QA personnel. These records shall be made available to the Engineer for review, upon request.

The QA operations shall be subject to the Engineers, Employer or Employer's authorised representative's verification at any time, including: surveillance of the operations to determine that practices, methods and procedures of the plan are being properly applied; inspection to measure quality of items to be offered for acceptance; and audits to ensure compliance with the Contract documents.

The contractor's Quality Audit Schedule shall be submitted to the Engineer for consent every three months or more frequently as required.

The results of Quality Audits shall be summarized in the Contractor's monthly reports.

The Contractor shall provide all necessary access, assistance and facilities to enable the Engineer to carry out on-site and off-site surveillance of Quality Assurance Audits to verify that the quality system which has the consent of the Engineer is being implemented fully and properly.
