If minimum liquidity required is 'W', then liquidity of member-1  $\geq (W * M) / 100$

- (iv) **T4 - Annual Turnover:** The average annual turnover from construction of last five financial years ending on 31<sup>st</sup> March 2025 should be **> INR 337.88 crores**.

The average annual turnover of JV/ Consortium will be based on percentage participation of each member.

Example: Let Member-1 has percentage participation = M and Member-2 has = N. Let the average annual turnover of Member-1 is 'A' and that of Member-2 is 'B', then the average annual turnover of JV will be = (AM+BN)/100

**Notes:**

- a) Financial data for latest last five audited financial years has to be submitted by the tenderer in **Appendix-18** of FOT along with audited balance sheets. **1.1.3.3 Bid Capacity Criteria:**

**Bid Capacity:** The tenderers will be qualified only if their available bid capacity is more than the approximate cost of work as per NIT. Available bid capacity will be calculated based on the following formula:

$$\text{Available Bid Capacity} = 2 \cdot A \cdot N - B$$

where,

A = Maximum of the value of construction works executed in any one year during the last five financial years (updated to last day of the month previous to the month of tender submission price level assuming 5% inflation for Indian Rupees every year and 2% for foreign currency portions per year).

N = No. of years prescribed for completion of the work

These data shall be certified by the Chartered Accountant with his stamp and signature in original with membership number and firm registration number and UDIN.
- c) In the case of a group, the above formula will be applied to each member to the extent of his proposed participation in the execution of the work. If the proposed % participation is not mentioned then equal participation will be assumed.

*Example for calculation of bid capacity in case of JV / Consortium / Group*

Suppose there are 'P' and 'Q' members of the JV / Consortium / Group with their participation in the JV / Consortium / Group as 70% and 30% respectively and available bid capacity of these members as per above formula individually works out 'X' and 'Y' respectively, then Bid Capacity of JV / Consortium / Group shall be as under:
